

## **List of JLRTBSI Internship Tests – August 25 which will be visible in dashboard-**

1. JLRTBSI Internship Aptitude IITKGP Test – Aug 25
2. JLRTBSI Internship Software IITKGP Test – Aug 25
3. JLRTBSI Internship SW & Controls IITKGP Test – Aug 25
4. JLRTBSI Internship Mechatronics–Mech IITKGP Test – Aug 25
5. JLRTBSI Internship Mechatronics–E&E IITKGP Test – Aug 25

## **Test Flow & Dashboard Instructions**

- Everyone must begin with the Aptitude Test, regardless of stream or internship role.
- After completing the Aptitude Test, you should proceed to the domain-specific test relevant to your applied role and stream.
- You will see all five tests listed on your dashboard. However, you are expected to take only the tests applicable to you.
- Please ensure you complete one test before moving to the next. Do not attempt multiple tests simultaneously.

## **Aptitude Test – Mandatory for All**

All students, regardless of stream or role, must take the JLRTBSI Internship Aptitude Test.

## **Software Internship Role**

Students from all streams who applied for the Software Internship are required to take:

- JLRTBSI Internship Aptitude Test
- JLRTBSI Internship Software Test

## **Powertrain Internship Role**

Students from the following streams must take:

- Electrical Engineering
- Electronics and Electrical Communication Engineering
- Industrial and Systems Engineering

Required Tests:

- JLRTBSI Internship Aptitude Test
- JLRTBSI Internship Software & Controls Test

## **Mechatronics Internship Role**

Students who applied for the Mechatronics Internship must take the JLRTBSI Internship Aptitude Test, along with one of the following technical tests based on their stream:

**JLRTBSI Internship Aptitude Test :** All candidates who have applied for this profile must appear for this

- Aerospace Engineering: Must take the Mechatronics – Mechanical Test
- Electrical Engineering: Must take the Mechatronics – Electrical & Electronics Test
- Electronics and Electrical Communication Engineering: Must take the Mechatronics – Electrical & Electronics Test
- Industrial and Systems Engineering: Must take the Mechatronics – Mechanical Test
- Mechanical Engineering: Must take the Mechatronics – Mechanical Test
- Metallurgical and Materials Engineering: Must take the Mechatronics – Mechanical Test
